

# **CMSI 587**

## **OPERATING SYSTEMS (GRADUATE LEVEL)** **Spring 2006**

### ***Assignment 0207***

This “assignment” is just an official reminder that the research paper prospectus is due on February 7. As mentioned in the syllabus, submitting it does count as an assignment, and we will give ourselves around 2 weeks to process your topic suggestion into some final form.

### **For Submission**

Please submit your paper prospectus to me in two forms: the LaTeX (.tex) source electronically, and both the source and the LaTeX-processed, print-ready form on hardcopy.
